CONSIGNES DE SECURITE ELECTRIQUES

Pour bien installer votre cabine de douche chez vous, vous devez respecter quelques règles :

- l'installation électrique doit être réalisée par un électricien qualifié. Cette installation doit être conforme à la norme NF C 15-100 en vigueur ;
- prévoyez une alimentation électrique indépendante monophasée avec terre 230 Volts-50 Hertz, protégée par un fusible approprié de 16 A (cf. Norme NF en vigueur). Prévoyez aussi un interrupteur différentiel ou un disjoncteur différentiel à courant différentiel résiduel (DDR) ayant un courant de déclenchement n'excédant pas 30 mA et exclusivement destiné à la cabine de douche, et de toute façon conforme aux exigences de la norme en vigueur à la date d'installation. Cette protection est à fournir par vos soins et doit être installée dans le volume 3 des volumes de protection, ou dans une autre pièce. Raccordez par l'intermédiaire du boîtier de connexion, les câbles d'alimentation de l'ensemble (type 3x2,5 mm² HO7 RNF fils de cuivre) non fournis ;
- les appareils de classe 1 doivent être raccordés de façon permanente aux installations électriques fixes. Les parties d'appareils comportant des composants électriques, à l'exception des dispositifs de commande à distance, doivent être placés ou fixés de façon telle qu'elles ne puissent pas tomber dans le receveur de douche ;
- prévoyez une protection IP55 pour le boîtier de raccordement de l'alimentation électrique ;
- il est nécessaire de relier les organes métalliques de votre produit au circuit équipotentiel de votre installation ;
- si la tuyauterie d'écoulement du vidage est en cuivre, raccordez celle-ci au conducteur de liaison équipotentielle de la salle de bain par l'intermédiaire d'un collier

F Vous avez la possibilité de réaliser un montage à droite ou un montage à gauche. Notre notice d'installation décrit un montage à gauche. Si vous voulez réaliser un montage à droite, il vous suffit d'inverser le montage.

GB This cubicle can be installed either left or right hand. These installation instructions show a left hand installation.

E Puede realizar un montaje a la derecha o un montaje a la izquierda. Nuestro folleto de instalación describe un montaje a la izquierda. Si desea montar su cabina a la derecha sólo tendrá que realizar el montaje al contrario.

I Avete la possibilità di effettuare il montaggio a destra o a sinistra. Il nostro manuale descrive il montaggio a sinistra. Se volete realizzare il montaggio a destra è sufficiente invertire varie fasi di montaggio.

NL U kunt de douchecabine rechts of links monteren. Onze handleiding beschrijft de links montage van de cabine. Keer de montage om als u de cabine rechts wilt monteren.

D Sie haben die Möglichkeit, eine Montage auf der linken Seite oder eine Montage auf der rechten Seite durchzuführen. Unsere Montageanleitung beschreibt eine Montage auf der linken Seite. Wenn Sie die Montage lieber auf der rechten Seite durchführen wollen, müssen Sie nur den Montageprozess umkehren.
