ⓕ D'éventuelles irrégularités de surface sur le dessous de votre receveur n'empêchent pas une installation conforme aux préconisations de pose. La colle (type polyuréthane ou MS polymère) comblera facilement ces manques lors du collage.

ⓖB Any surface irregularities on the underside of the shower tray have no influence on the installation according to the installation recommendations. The adhesive (polyurethane or MS polymer) compensates for these unevenness when bonding the feet off without any problems.

ⓔ Posibles irregularidades de la superficie en la parte inferior del receptor no impida la instalación de acuerdo con las recomendaciones de instalación. El adhesivo (tipo poliuretano o polímero MS) rellenará fácilmente estos huecos al pegar los pies.

ⓓ Eventuali irregolarità della superficie nella parte sotto della doccia non impediscono l'installazione in base alle raccomandazioni di montaggio. La colla (tipo poliuretano o MS polimero) riempirà facilmente queste lacuna quando si incollano i piedini.

ⓗ Eventuele onregelmatigheden in de vlakke onderzijde van uw douchebak vormen geen belemmering voor een installatie conform aan de gestelde richtlijnen. De lijm (type polyurethaan of MS-polymeer) vult eventuele openingen makkelijk op tijdens het lijmen.

ⓓ Eventuelle Unregelmäßigkeiten der Oberfläche an der Unterseite Ihrer Duschwanne haben keinen Einfluss auf die Installation gemäß den Einbauempfehlungen. Der Klebstoff (Typs Polyurethan oder MS-Polymer) gleicht diese Unebenheiten beim Verkleben problemlos aus.
